

OpenAI 02 re Broadway musicals.docx

Question to openai.com ChatGPT on 2/10/2023:

We're going to New York City and would like to attend a musical, preferably a new one. Which ones would you suggest, and why?

ChatGPT Response:

New York City is the birthplace of American musical theater and is home to some of the world's most famous and beloved musicals. Currently, there are several new musicals playing on Broadway that you might enjoy, including:

1. "Hadestown" - This musical retells the ancient Greek myth of Orpheus and Eurydice set against the backdrop of a depression-era America. It features a mix of folksy Americana, soulful ballads, and high-energy gospel numbers.
2. "Jagged Little Pill" - Based on Alanis Morissette's iconic album of the same name, "Jagged Little Pill" explores themes of pain, healing, and empowerment through a powerful and moving score.
3. "MJ The Musical" - This biographical musical tells the story of Michael Jackson's life, from his rise to fame as a child prodigy to his evolution as the "King of Pop." The show features a mix of Jackson's classic hits, as well as new music created for the show.
4. "The Phantom of the Opera" - Although not a new musical, "The Phantom of the Opera" is a classic that has been thrilling audiences on Broadway for over 30 years. With its haunting score, spectacular stagecraft, and unforgettable love story, "The Phantom of the Opera" is a must-see for any theater lover.

These are just a few of the many new musicals currently playing on Broadway. No matter what your taste in theater, there is sure to be a show that will captivate and entertain you in the heart of New York City.

Feedback: Thumb up.

This is a rather skimpy list, it's OK but could have been more extensive, especially since I have already seen two of the four mentioned.
